

# T-Shirt Dresses

## Sewing T-Shirt Dresses

1. Sew side seams of material (skirt) together. Iron
2. Fold the bottom of skirt up  $\frac{1}{2}$  inch or smaller and iron.
3. Do this again. Then stitch the bottom hem.
4. Mark skirt at 4 spots – sides, center, & back.
5. Gather skirt – set machine on largest stitch length (4 or 5) and sew. Don't cut thread too close to fabric – leave 4 to 5 inches. Gently pull one thread making it gather.
6. Pin skirt to T shirt matching the side seams on the shirt with the pins of the skirt. Find the center and back of the shirt and line it up with the pins on the skirt. Pin it together.
7. Set your machine on regular stitch (2  $\frac{1}{2}$  to 3) and sew the T-shirt to the skirt. Don't sew on the pins, you can remove them while you're sewing. Iron
